Those who made the promise doubtless thought it could easily be kept, but the fact is that the promise has not been kept and there is no reason to think it will be. The country has been appealed will be. The country has been appealed to to do what rich New York undertook to do herself, and the country is not disposed to come to the rescue.

Brown-Sequard's last name is pronounced seekar, and the more of his celluir of life you take the seekar you get. posed to come to the rescue,

If the country had been consulted in the first place it would have declared in favor of the National Capital's beautiful National Cemetery, the fittest place in the land for the chief of American soldiers to rest. It is not too late to place

the remains in Arlington, as is now sug gested, there to lie among the men who followed the Old Commander, where soon the country would erect a monu

ment worthy of itself and Grant. The removal does not require New York's consent. It will be enough to have Mrs. Grant's. The old soldiers wil attend to all the rest.

Epoch.

The transition from long, lingering and painful sickness to robust health marks and epoch in the life of the individual. Such a remarkable event is treasured in the memory and the agency whereby the good health has been attained is gratefully blessed. Hence it is that so much is heard in praise of Electric Bitters. So many feel they owe their restoration to health, to the use of the Great Alternative and Tonic. If you are troubled with any disease of kidneys, liver or stomach, of long or short standing you stomach, of long or short standing you will surely find relief by use of Electric Bitters.
